

To: The United States Air Force

I am Skip Stuart Stanley ss# 150-64-6999 TX DL 07736673 DOB 05/05/62 - USAF 1980-1983
I have changed this Document, so keep reading if you have read it before.

Colonel Michael Maginness I have tried to contact the Air Force before, but no one is responding to my message. I was the one they called to confirm if they were to drop those bombs in Aug 2007 I was informed of these bombs many years earlier, and I had to send spies into the House of Yahweh to find out what I needed to know. I am still doing what I can as these guys are not done. I need your help! I have a lot of secrets you need to know.

I have a secret weapon. I feel it would be Important to work with the US Military and Law Enforcement. I expect next year Sept 11 2024 when I will be Commissioned to use it, but that date all depends on what happens this year. If I can stop this event, then we just might get 5-7 more years. It seems everything depends on what we do.

How did I get this weapon? Well that is a long story, and maybe one day I can explain it, but not here.

This is to be classified Top Secret, and was sent to NSGT May in the recruiting dept. in Miami, and he was to sent it to the people in Washington. Not sure who... I know Obama, Clinton, and Bush, all three have heard of me, and are very much not happy with me! I expect they already know about this, but maybe not. I worked with FBI Agent Gary McKnoll in the Abilene Office when He verified this situation I have found myself in. I am here to help the people, and the problems I want to address are bigger than I am, and more complicated than I have time to understand. I want to be sure where I use this weapon, that is the best solution. I see the problems the way I see them, and in most the situations, I know very little about the history and complexities.

I will have the opportunity to change the problems I see. I will have the power of superman, and the breathe of a dragon. I have my beliefs I plan to enlighten a few people with. I have a list of people that need my help. I have been on this mission for twenty plus years now, and have done very well.

In 2007 on August 29 I was the one that Gary McKnoll called to stop the Bent Spear from being done.

The United States Air Force was going to drop nuclear bombs on my cities... Unbelievable! I thought it was the Navy, and the Air Force showed up. Why was the Air Force involved in the House of Yahweh?

I knew I was the Witness in 1997, and I introduced myself to Gary the first time I met him in 2006 as the Witness. I asked Gary that day to let me talk to his very close friend Israel Hawkins the False Witness. If Gary had done what I asked him to do, then Israel Hawkins could have been saved, but as it stands right now, I will lock Israel Hawkins up in the Lake of Fire for 1000 years very soon.

We can change the future, all we need to do is try.

I am making a difference, but I cannot do it sitting here! I thought Israel Hawkins was the Witness in the Scriptures, just confused, and needed my help. As I was looking for the Two Witnesses in 1988. I quickly realized Israel Hawkins was way off in his teaching, because I study the Dead Sea Scrolls. You see I know who the Jews are, and I know their SIN, and I will need to go help the Jews in Israel soon as well, but We need to walk carefully. The Jews need to relax, and slow down.

So in 1991 I was kicked out of the House of Yahweh. I considered Hawkins a Threat to my friends, so I trained spies, and sent them into the group. I met Malak Obama in 1991, and we talked a bit. I have pursued Hawkins all my life, and I had to give up everything I owned including my name to stop what I was finding out. The House of Yahweh has Navy Intelligence in the ranks, and I am not liking what I hear today! I really did not believe the bombs were real back then. I really did not know, nether did I know where they were going. Just the threat was real, and I needed to do something, and posing myself as the Witness was the only plan I could see. And it worked! For a while, 2007- 2024 about 15 years. Little birds are talking again, and this time I am listening, and you should be listening as well. It was extremely hard for me to go against Israel Hawkins the way I did. It was a die if you do not or die if you do, so put the boots with fire in them and jump! Because once I start this, I cannot stop it, and say, ok, "I quit" that was not me back then... Plus I told my friend they would steal everything I own to go against that guy, plus they will try to murder me. I did know if this guy does what he is planning to do the WORLD not just my friends would be in very very very big trouble! I decided way back in 1990 I was going to stop this guy! Just did not know how?

That is why I went to Gary McNoll for help in 2006, and I really could have changed Israel Hawkins fate, if Gary listened to me. Israel and I would be doing this together. Now I have no one, I know no one who would go with me today. If you know the other Witness please tell me about him we need him now more than ever. I expect it is a guy in Israel, having the same problems with the Jews and churches I am having, and confused about who he is. The Truth is what I have, and everyone needs to hear it. So I plow forward. I believe in Love, so first we must show Love. The things I need to do are very complicated, and I need help. I am fine with working alone, but things could be done much better with help. I need a team of 12 to do what I need to do.

The United States Air Force was going to drop nuclear bombs on my cities... Unbelievable! I thought it was the Navy, and the Air Force showed up. Just so you know you Fucked it up last time, and Obama took office. I read the report that you whitewashed to look like the Munitions Command did this accidentally loaded live nukes with homemade detonators in them, this was no accident! The United States Air Force looks like you cannot wipe your ass without falling in the toilet! Do you think they are going to trust you again, Hell No! This time it is the Navy I am very very very sure!

I had a business doing very very very well, I built two homes, and I finished my Rocket and Spaceship. Life was grand, and that month I had planned to make my first flight just 30,000 feet max I wanted to feel the cold, test my suit, and see what that was going to be like briefly then fall back and land and see if the Air Force would show up, or is this thing I made invisible. I had a wife of 20+ years, and we loved each other very very very much, I cry every day! Because of the SHIT YOU CAUSED! When I heard what was coming, I realized I am the only one who can stop this. I am the only one who knows, and I am the only one who would do such a thing, as everyone else in America, are watching the football game. I told my wife what I needed to do, and she said, "If you do that, I am selling the house and leaving, and you will never see me again," I told her to do what she felt she had to do, as I cannot protect her, and do this. She told me then, "They will kill you", and she was leaving the state. She left me and I have never seen her since. I never got to fly my ship, as I had to put that off until I finished the House of Yahweh. I started this mission in 2003 and I have not worked since. Today I live in the woods with no name. They burned down one of my homes, stole everything I owned \$3 million +, and I was chased for 4 years by 4 Hells angel bikers, the same guys. Men with guns outside the van one night, getting hit by stolen trucks, and I lost everything I owned. I do not have one friend, not one! I used to hang glide, bungee, skydive, and scuba. I do not have any fun any more, just trying to survive. Then I get arrested, and now 50% of the people I know believe I murdered someone, and the one's Who I have explained my situation to, think I am just paranoid. I pass old very good friends in the store and

they will run from me. I cannot explain myself to these people. All because off some corrupt Judges!!! That own me a shit load of MONEY!!!!!!!!!!!!!!!!!!!!I know that shit is not your problem, it is their problem!

I have lived under my house for six months letting no one see me, to get information, and worked for people building their home for free just so they would give me the information I needed for 3 full months. I did what I needed to do like sit and eat with my enemy...That is how much work I put into finding the info I have. The people who want me dead the most used my files in my kitchen to make their hand gun full-auto.

In 2007 I was framing a house in Abilene Texas about a year after I went to talk with Gary McKnoll the first time as I had another spy to send into the group, and because the last three disappeared strangely. Please understand these men I send into this deadly group are my closest and best friends. I have 12+ very close friends who were murdered by The House of Yahweh. The last one was 2 years ago. It was about 10 AM Aug 29 2007, and I get a call from FBI Agent Gary McKnoll He says, "Are you the Witness" I said, "I already told you I am the Witness, Israel, is not," Gary talks over me and say, "I do not want to hear it, are the Bombs going off?" I could tell the emergence in his voice. Someone is there in his office or on the line listening. I told him "The bombs are not going off. Gary said, "That is all I wanted to know, and hung up. Puzzled over what just happened, but it did not take me long to figure out what ever that was, it was very important, then 6 months later I read about the USAF Bent Spear Mishap.

You and the whole world are still alive because I did this. When this event happens, that is when Tribulation in the Bible will start and all this world will end 7 years later, and I will be done chasing snip.

I gave you 15 years.

Do you want 7 more?

Then you get this letter to the right man. America, Freedom, Democracy, and Human Rights are at risk.

I do not need to tell you, be very careful how and who you talk to about this, as obviously everyone is not on the same side in your group. One more thing in your research you should avoid using my name, as that would draw attention to your research. I believe Gary is trustable, and I believe the man forced to resign in Minot Commander Keys, Ha Ha "Keys" was the man who called Gary that morning, and he was fired for stopping this, not causing it, as everything we read in the papers is most the time twisted somehow. I do not know the full story, and it really is not important. What I did worked in a really big way. The House of Yahweh was 16,500 strong in 2003 and in 2009 was only 500. Today they are less than 1000. The problem is these guys are not done. They plan to rule the world.

I would have sent this 2 weeks ago, but I have had a very hard time, and had to move again, so life here sucks, as it has been cold and raining this whole month. My internet was disrupted, and because of all the ip changing my gmail got signed out of, and the recovery account was over limit, and solving all that was a headache. I think I am back online now. So I really apologize for the short time frame we have. Say sada sada We have what we have.

The pitcher is back on the mound. Do you want to stop the game again? I have been chasing snip all my life, and I am on his heels. Do you see all the actions in the government and spending? Do you

want to change things? We can, but we do not have much time.

I am getting upset with the United States Air Force! You move too SLOW! I Have a Weapon, and I have plans of using it! You do not want me upset with you! You get up off your ASS and come see me. A Master Sargent is not rank, you tell the Brass to get off their Ass, and come see me! This week, or next will be fine, but before the end of February 2024. This is serious! We do not have a lot of time, and I need the man in charge, not just a Master Sargent, I am sorry. I would suggest show up in shorts and flip flops. But your choice. I do not care how many of you there are, and you can bring the MP with you, if you like, just do not make a scene, as I am not your threat. We have something to talk about. Maybe 1-3 hours, in person. I will take you fishing. After sundown I cook Gluten Free Peach Cobbler roasted in the fire, and do a fire dance. Spitting fire has burned all my upper teeth out. I only have the teeth under my tongue, because they are not affected. I consider myself Air Force, even though you did not like my name, I thought it was a good name.

You have no idea what I am into, and I can tell you, "This is the only thing you need to concentrate on until we have talked". You research everything I have explained, ("In two days..., like the bombs are going OFF!!!") and find the right man that will keep this quiet as possible. You email me with Time and Date, and I will tell you Where. I want to save the world, but that cannot be done. All we can hope for is more time. I want to use my abilities to help save people. I did not ask for this weapon, nor did I ask for this job. I am on a roller coaster, and you are in front of me. I want to pick you up, not hit you, but if you ignore me as you have been doing, you will get hit. Simply put, "I return fire with fire"... If you cannot organize and execute a top secret mission, you are not high enough rank, as I need a General. I do not have time to waste, and I need your help! I must go to North Korea, not my choice. I need to train right NOW! Do you want to protect America, then talk to me! Little birds are telling me bad things, and WE do not have any time to waste! I will not consider you my friend as you are probably my enemy, but either way you need to work with me. We do not have any choices here. My orders really come from me, but I respect your Knowledge, Experience, and Command, so I will be listening to your advice. Gary was my enemy, and when the chips were down, he made the right choice. When this event happens everyone will suffer, and your children are included. I believe Gary's daughter was in Dallas living in 2007, so he had something to loose that day.

Why do I want to go to North Korea? That is not important right now. Yes, in time I must go, but we have trouble here in America right NOW! And that is what we need to talk about. Do you want 7 more years? Then talk to me.

Blah blah blah... Korea is Not important right now... You were suppose to be here already, so I am not writing more paper. You Mark this as Top Secret, and get it to the man in charge. Let us all Pray you get this to the right man! As this is the third time I have sent this in the last 6 months! Are you sleeping, or you are the enemy, and I will have assassins at my door any time? I risk my life to save this world the least you could do is thank me. You are probable like the rest of the humans, just trying to keep to themselves and not get involved.

I do not want to go! But... I will not sit on my ass eating ice cream, watch these people win, and feel bad that I decided to let them do this, when I could easily stop it. Plus I would feel bad watching people suffer. It sounds like I want to help everyone, and I do, but no one is listening. Watch these people suffer under Kim Jong Un rule is heart breaking. Give everyone freedom like we have in America and we still have a mess, but self-inflicted as American could do better than they do. If these Koreans keep going the way they are, they will look like Syria next year. This is not the Peoples fault, and carpet bombing the cities and factories is killing the innocent. One man can change this. I may sound tough,

but the truth is, I do not want to hurt anyone. One thing that is important to me, in doing this task I have, I want to keep the body count down as low as possible. How I plan to do this, first, show love. If you have a better plan I want to hear it.

I cannot prophesy anything, as I am not a Prophet, I am a Witness, so I must go there and see it for myself. I cannot tell you what will happen to me in North Korea. I am going there to help them, not hurt them. Kim Jong Un is accused of doing some very bad things to His own Family, so I know I am walking into the worst situation. One way or another, I must go deal with this situation. I could start at the front gate, and before I get to Kim Jong Un the complete army will be obliterated, and I still have not found the King. The only way any of this can happen easy, I Must have the US Military giving the info, and training I need. In every situation there is one man I must get to, and I need him alive and well, just with his ear between my fingers. Then the fighting will stop. None of this is easy for me, and I would much rather stay home. If I am to have this special ability, I want to be effective from the start.

I do not know what you are interested in doing, but I am not your enemy. I know the UN has a problem with most these people as well.

I do not have time to waste. The day I get Commissioned, I do not want to start my training, because no one would listen to me before that day. I can also see no one is coming to tell me what to do. The Creator is waiting on me to do what is best, so my choices are made in Faith. North Korea is a very complicated problem, and I will be giving my life to help these people, as this could take 10+ years. I do not know... Maybe I get shot, and all this was my imagination. Still I must try to help these people. I hope no longer than two years. What goes on in North Korea will directly affect America. The longer I spend in Korea the better off America will be, (I hear you laughing) and "If I am still alive and well in Korea in 10 Years" then what I did worked, and America should be fine, until they are successful.

I am not looking to be Rambo, I look to be true friends, and the decisions to change they make, are their decisions, not forced. That takes time to make that type friend. I want to see peace and friendships with South Korea, the people feed, this resentment against Americans to go away. I want a lot more than that, but what is possible. I have heard Kim Jong Un say he was to stop work on the Hydrogen Bomb, so I believe he has already realized, the bombs he can build are no match for his enemy, regardless how many he has. I see the man searching for answers. What I do and how I do it, is completely... Well maybe I have a plan, but that does not always work the way I plan them, so, "unknown" to me. I am walking into a complicated and deadly situation, hoping for the best. Keep my eyes and ears open and my mouth shut. A Wise man, is a man of few words. Do not let your Left hand know what your Right hand is doing the Creator Says. You need to do the same.

I have heard of the nuclear threat of North Korea. I also said, "This is not my problem", and ignored the issues trying to stay out of this. I knew of the Korean War, but could tell you little about it. I have been hearing of really bad human rights stories coming out of North Korea, and started investigating what I have heard. I have been doing research on the history and culture. I feel these people have been trapped in their own trap, and cannot find a way out. Kim Jong Un has his back against the wall, and guns pointed at Him in every direction, and from far away. It is like they are stuck in 1953, and there is a war going on. This is crazy. No one wants that land, China likes the buffer between north and south, and America likes the buffer as well. Kim Jong Un has the defense he needs and now can concentrate on Schools, Health Care., Power, and Water. I need to get these ideas into Kim Jong Un. I believe this is possible. I want to go bring encouragement.

North Korea is one issue, but the concern I have right now is here in America right now, with your

help, we can make a difference once more. Like I said, we can get 5-7 more years, but I would rather not do this alone. This one will take a team of 12.

I am going to help your research into me: <https://skip.gothere.us/home/>

I just made this page, and I have not sent anyone to it yet, as just maybe your are going to email me a Time and Date.

Everyone here know me as Mike, as I do not tell anyone who I am. This just happened today, and as this was happening, I was thinking, "I wish I had my camera to record what is going on here just to show the USAF. Then the Neighbor can out Because of all the screaming Kimmy was doing, and she is a witness to what I have done! The neighbor says. Kimmy the girl I have known for 13 years, and repaired Motors and boats for free for her and her husband. Real good friends and still should be! Her Husband died a few years ago, and Kimmy came and got me to help her clean him up, as he dead in bed 3 weeks earlier, because they were fighting at the time she did not check on him. She is the one that came and got me because she was lonely or scared and wanted company for the last year, and I helped every storm when her boat was grounded or getting ready to hit the rocks at 2 am in middle of a big storm. Free, as I would never charge anyone to help them. She is the one who would dance with me and tell me she would be a good wife one year after her Husband died. She would come get me in middle of the night to sleep with, but I never had sex with her. Just friends, so I explained to her who I was as she was a very close friend, and now she is believing the other group of friends who have decided 7 years ago I murdered someone, and they just do not have the evidence or something like that. So today Kimmy is in the streets telling all the neighbors I am a murder, and she knows all about it now, and they are coming to get me! The neighbor said she heard it, and if I am who I say I need to prove it. This is really very sad to see. I want to throw rocks at some one, not Kimmy, she is just confused. Our Justice System needs correction! Nothing like fun in paradise. Now Tim is concerned as he says he just wants to run his business and does not want any trouble.

I guess this not having any friends was my own fault. I chose to get involved with bad people for good reason. To stop them. At the end of the day, that will leave me alone. I am real upset right now. I do not have anywhere to run and hide from this crap. I want to fight back. Plus I cannot hide from this anymore, I am ready to fight. I would liked to chase the corrupt and bad people to the other side of the planet into a hole, and make sure they stay in it! And terminate some. I want to start this mission ASAP!

So please let's work together! I am contacting you because you were in command or would know the man who was in command when the plane landed in Aug 2007 He probably would know the details about the "Witness" and why this "Witness was so important to these guys. I know why, but do you? I am trailing these guys, and I have plan.

The Witness "Yaaqov"
