

Hello General Brown, the FBI and Chief Brandenburg

I have tried to find an email or way to send this document, and you do not have an email anywhere I can find, so you make contacting you very very very hard, as when I call the FBI or military you just hangup on me, so that is why I must walk onto a base to contact you! That is your fault, and you deliberately made it that way, because you do not want to help anyone. So I am upset with you! Today is Friday April 26. so if you do not get this letter for a week, or if you even do email me, then you will have the time you have to make this meeting happen as I have described in this letter. I can see why I went to the base now! As this is the way the FBI and the military have been working in the past year. Do you really want to help people, or America? It does not look like it! This paragraph was only added because of this lack of communication skills the FBI and Military have for the citizens of America. I must walk to the bus stop, wait on a bus, travel back to the Navy Base to deliver this letter, then wait two hours for the next bus back. That is really pitiful. Then you wonder why I went to the Navy base to begin with... It does not take a very smart person to see the big mistakes the President is making, and He has already been found incompetent to have testimony in His own Court case. Now they plan to have that man rerun for office??? It is very obvious the Commanders of our Military are looking just as incompetent. You guys control the nuclear weapons, and the security of America. Can you be trusted with such a task? I am not trying to upset anyone here, but think about what you are doing, before you publish your statements. General Brown, you were the Coronal over the Munitions group that reportedly flew over 200 Live AIM-129 Missiles from Minot Air Base to Berksdale Air Base in 2007 to be destroyed or decommissioned under the wings of an aircraft. I am trained in Munitions by the USAF, and I know better. Those AIM-129's should have been loaded onto an 18 wheeler, and driven to the nearest EOD range with an armed escort. You do not fly any weapons under the wing of any aircraft, unless the bombs are to be dropped, and when they are not dropped, for what ever reason, Munitions and EOD are there waiting on the "Hung Munitions" because of the hazards they pose to the Base and Personnel. Just to hear you planned to fly over 200 decommissioned Live Missiles, makes you sound INCOMPETANT! But we both know your game, and I am not looking to get involved in that. I have known all this for many many years now, and just kept quiet, as that is not my job to chase you around. When we load a Nuclear Weapon on an airplane, we as "Munitions" are all talking, "I wonder where those Nuclear Bombs are going???", so to think that plane sat at the end of the runway for 30 hours, and unattended, is even more crazy, as EVERYONE was talking about it. Then the comment, "They inspected the warheads to be sure they had Dummy Detonators in them" We DO NOT MAKE a "DUMMY DETONATOR" for live Nuclear weapons. That does not exist. So How much involvement do you really have in this event? I do not expect you to answer that question. I will keep my mouth shut about this BS, as I want to save the planet as well, but You General Charles Brown get your ass down here for this meeting, as I need to there, and make this, and every meeting I plan happen correctly. I want you at every meeting. Just know this whole thing totally screwed up my WHOLE LIFE! I did not ask for this JOB! So I expect the Air Force to respect what I have done! That starts with you General Brown.

I am sorry for the trouble I may have caused you these past few months, but I have a job to do, and I need your help. You make my life very very very difficult ignoring me. I am told you General Brown and the Head of the FBI will be coming to see me in two weeks, and I would like this meeting to be as productive as it can be. I believe some people need to be at this meeting for lots of reasons. I want the meeting to be as short as it can be, as no one wants to be there. I reread the letters I sent you, and everything I have to say to you I have already said, so I really have nothing more to add. I understand you will have a list of questions, and I could guess at what they are, so I will give you the answers for some of those questions now in writing.

Who is taking over America? "They" are doing it, and that is all I need to say, as we both know who "They" are. We also both know full well why. Are "They" really taking over America, or just correcting a problem that has gotten out of control? I can see "They" are Stealing America's Money Exponentially, and that is very very very sad to see, but "they will all pay for that as every sin will not go unpunished. Again is not my mission to solve.

Who is telling me these things? Little birds, and that is all I will say. Not just one bird, as there are many. I get my information from where I can find it, and not everything I can trust.

Why do I think I can stop this? I do not think I can stop it. I can however get more time, as "They do not want me upset with them. "They" are just trying to save the Planet. I am in FULL agreement with that, and I am just very glad I am not involved in what "They" must do to save this Planet. I would consider many of these people my friends, as "They" are doing the Heavenly Father's Will, just in a different way than I am. Everyone has a different reason for why they do what they do. My Only Mission is to Protect the Heavenly Father's Children. I need to stay focused on that one Job. I can however fix other problems with this ability along the way, I want to do that as well.

I have asked for training, and that is jumping out of planes, learning Korean, and learning the aircraft North Korea has. I need to land on a dime from 30+ miles away, on time, without being seen on radar. I build my own equipment, and that takes time to make, and funding, as I do not have right now. If I cannot do this right the first time, I doubt I will get a second time. This is just one job I must do. The FWC along with these Corrupt Judges have Stolen my Research, my Ship, My equipment, and my boats, all critical to the tasks I must do, and that needs to be resolved ASAP! So those are on the top of my list. When the first sniper bullet from whoever, as I have a list of people that murder people without concern for anything, because they are Law Enforcement) hits my head, all the Lawsuits I have that are not resolved before that event, will be 10 times the asked price! Plus then I will seek revenge as well, as I will be very pissed off. So I believe resolving these Law suits will save lives. I came to the FBI first and you Ignored me, then I wrote letters to the US Air Force, Very Nice letters wanting just to help North Korea, and resolve the issues they have with America, and help their people, and the USAF Ignored me 4 times! The Judges and the Sheriffs as well as the churches do not have any understanding of who I am, or what I can do, but the FBI and the USAF should already be watching this and me from the events of 2007. So I depend on you not ignoring me, and helping me, as that is your Primary Job. Why? Because My Primary Job is Defending The Heavenly Father's People and the Planet! I would list Defending America as also the Primary Job, but somewhere the line must be drawn to what "Defending America means, when The Planet is at risk because of American/European Lifestyle. So the Planet comes first. This problem is a very difficult problem, and is my concern, so I will be just trying to Protect the Heavenly Father's People, and let "Them" do what they do, as "They" are Wise enough to know the problem better than me. Do you really think it is a good idea to ignore me with the power I have?

I must deal with these false prophets, and that is my primary job first. If I do this right, and I have Your Help, this will not be hard. Without Your help, the task becomes a very bad situation. Non of these people will listen to me for one second, and All of them have already excommunicated me from their churches, with restraining orders, for the same reasons. Because I told the Pastor, the Name of the Messiah is not Jesus, it is "Yahshua". That is their reasons, and the only message I bring first in every church. The problem; I am dealing with men who are proud, do not study, and do not know who I am. They resent someone telling them anything. If spitting fire is all I have to show my Authority, many people will die, as they will keep shooting at me till there is no one left with a gun. Then what do I have waiting for me outside? 100 Officers that will do the same, as everyone of these will think that

gun will stop me. So it is very obvious we must take another approach. I do not want to kill anyone, but when I am shot at or attacked, I will kill.

In this meeting I would like to see Gary McKnoll, Zephenyah Reaka, Margret Westen, Rose Mary Hurley, and Sonia Coleman my Wife that left me because of this. These are witnesses to the past events in my life they were involved in. This is not to convince You the USAF or the FBI of anything. They are there to convince the other people that I need the meeting with the SDA and LDS. If We do this right, we will change the world to be a better place, and I will get those people I am looking for out of your way.

I need the Latter Day Saints Prophet Russell Nelson, His Two Advisors, and His Twelve Apostles. They need to bring 20 copies of the Book of Mormon with them. One of my messages I will bring is; "If you are not willing to read the other groups book, Why should they read your book?". I have studied both books, and there is a very valuable message in both books. I believe both these groups have a lot to learn from each other. I want as many of the members that want to be there, plus Pastor Nephi and the 4 - 5 elders I spoke with in the office in Marathon and 4 elders in Key West.

I need the Seventh Day Adventists Prophet Ted Wilson, His Advisors, and His Twelve Apostles. They need to bring 20 copies of Ellen G White's book, "The Great Conspiracy" with them. I instruct everyone I teach to read Ellen G White's Book, as she did a very good job writing it, and I credit Her for her work. I want as many of their members who want to come, to be there. Plus the Two Pastors Dave Dazile, and the Main Pastor from Miami, I think his name was Gary. I plan to cover basically 4 studies I have done. I posted these studies on my website, so they should all go read them before the meeting. <https://gothere.us/scriptures/> I am really not going to elaborate much past what I put on the website. I think the main point of the meeting is show Love to your fellow man, and keep the Words of Yahweh. The pastors of both these groups said the same thing to me. "Our church has not changed it's doctrine in 150 years, and we are not about to change now!" This is exactly the attitude that will keep you from learning and growing. That is the attitude that I must break. I have 20 million souls depending on each of these Prophets, and I am fighting to help those people. There are people in the US Military in both these groups, and I fight to help those people. In both these groups I have both elders and laymen, that agree with me the Name of the Messiah is not Jesus, and is "Yahshua", and then they say, "I cannot change until the Prophet tells them to."! I expect I will drive that change, as I am quiet convincing. These men cannot skip this meeting, as this is their opportunity to share what they believe, and their book with 20 million people in the other group, so they need to be their own witness to what they believe. One more thing I wish to accomplish is, eliminate the Prophet positions, as there is no Prophets on Earth today. These men run their churches as a committee, and vote on the changes to doctrine in each group. We do not need any new members to the committee of 15 or so that are at this meeting. I am not going to be running these groups either, as I have to much to do already. If we had a good Prophet or King, that would be good, but we do not have that. So leaving the fate of so many in the hands of one man is not a good thing. I am not looking to make demands on how they run their groups. I do need to be very clear, the Lake of Fire is waiting for the False Prophets, so to want those boots, is not a smart choice.

I need a room big enough for everyone to sit at tables facing each other with their laptop and internet. Plus the observers and members that would want to attend. The LDS leaders on one side and the SDA leaders on the other observers behind me. I will be in the middle addressing both groups, with a camera on me. I want this recorded for the sake of history, but not sure if this film will be made public. Even this letter I am not sure should be made public. When I go to North Korea, I do not need to much history following me. I need to be just a man that parachutes, climbs buildings, and bungee jumps. I

need to look like I am an interesting person, and not a threat. I am going to ask each of these witnesses Gary, Zephenyah, Margret, Rose, and Sonia to testify on my behalf, just as character witnesses, they can say what ever they want about me. I do not really have any questions for them, as they already know what they want to say, short and sweet, and maybe the LDS and SDA have a question or two for them. This will be the first 45 minutes, and we will take a break. This is not a court, so I encourage them to all talk to each other during the breaks we have. I also do not want a scheduled time to restart. Maybe someone went for a walk, and we just wait till everyone is back. I do want to keep the meetings to 45 minutes. If everyone wants to hang out there and talk for 3 hours after the meetings are over, I would want that, as if that happens I probably did well. This will be very very very important that both these groups the SDA and the LDS like each other. Nothing could be better than that. So we do not want to rush everyone off. Maybe coffee, chips, cookies, what ever they want. Make them feel welcome there.

Then I will speak for 45 minutes, and we will all eat lunch. This will give everyone time to think about what I have said, and gather questions to ask. If just the Head of the FBI come here to ask me questions, you will not get the real answers you need. If you organize this meeting the way I am asking you will get all your questions answered, plus completely understand what I am doing, and how well I do it. You will have a better understanding of where the Military could use me to solve other issues you may have I am not aware of. I am searching for problems that my abilities could solve, and how I could solve those problems. I have really big problems that even with my abilities and talents, I just cannot solve, and am stressed to find answers to. Like Child Sacrifices from the VooDoo Priests Were do I begin with such a task?

Then I will finish what I have to say, and answer their questions. This should take no longer than 45 minutes. Then we can all go home, or sit and talk some more, what ever they want to do. I am a year behind, because I was not sure what to do, and how to do it. Every idea I had when I worked out the details of how I would do this Job, toooooo many people were dead, that did not need to die, if they would have just listened and believed in me. I even got it down to only 2-3 or just one person would be killed because he pulled out a gun, and shot me. That still was not acceptable. Why does any need to die? Then I contacted the FBI, and they just hang up on me. So then I decided to go Join the UDSAF in May of 2023. That did not go well, so now I am 8 months further behind. So my patients is wearing very very very thin. I am getting stronger everyday, and I am getting better at spitting fire, but I do not control it. I wish I could control it.

I have other groups I must deal with, and these are not near as easy as the LDS/SDA. I do not even have a plan, and until I see how these two work out, I am not even making a plan. Whatever I do, I want to be as peaceful as I can be. These two groups do not have a big problem with child marriages, child sacrifices, dividing families, murders, and teaching their children to murder other members. The SDA/LDS groups are really light and easy compared to the others. I am looking for answers from the the Military, and the FBI. I am going to deal with these bad groups, and I really need your help in how I do this. This is your opportunity to make a difference, and not be directly involved. I was gearing up to jump into the Waco situation, and had a plane and the equipment already packed the night before the Military burned those people. I do not remember what stopped me that night, but I had to wait another day. I planned to land on the roof, and talk my way into the group. I wanted, and could have helped those people. That situation did not need to end the way it did. Mattithiyah Stubbs could verify that story, as he and his dad and family were all living with me at that time. Mattithiyah Stubbs is one of the main elders of the House of Yahweh right now, and I talk with him often.

There is some important situations in the LDS group that I will not address in this meeting. If the

meeting goes well these situations will disappear I would hope, but I will be looking for more information all the time. The LDS are about 20 million strong, and very loyal to the death to their belief. There is a small group of separatists 1 million strong, that follow the teachings of a man Chadd who wrote books. These teachings are still circulating, even after the murders and suicides that happened. I want more information on the ideas these people have, without looking like I am looking for it. The LGBT suicides are a concern, and need to be addressed in time, but not at this meeting. Maybe privately in the future, but I must stick to what I believe I can do, without complications. Bishops molesting children is in every church, and something I do not believe is my problem, as long as it is not a doctrine issue. Meaning the church does not teach or openly allow this. I do have a problem with the churches hiding and protecting pedophiles, as so many do. Those issues are not really the churches fault, as it is the mind of a man. Women do not seem to have the same desires as men have.

The really bad groups like the House and Assemblies of Yahweh are the real trouble. These two groups steal and sacrifice their own children. They murder their own members, and they separate families with what ever cruel means they have. These two groups are run by Sheriffs and Police Officers. These two groups have big guns, and every elder is armed all the time. These two groups are COMPLETELY PROTECTED BY THE FBI AND THE LAW ENFORCEMENT. So that is going to change when I get involved! Their guns do not scare me. How am I going to deal with this without killing a whole lot of people, I do not know, and one of the main reasons I came to the Military and FBI first. I want to leave these two groups out of these meeting with the LDS and SDA, and if we can be convincing enough that I am the Witness without even bringing up the bent Spear Mishap, I would do that, but how, as that is what convinced me. Even now I walk forward not knowing I am bulletproof, as I have not experienced that yet. Given my life, and everything that has happened in my life, and the goals I have, I believe I am the Witness. Then the spitting fire happened, and I really believe, but no one from Heaven is coming down and telling me to go do anything, so I am just doing what I must do, and every step is worse than walking on very thin ice, in the middle of the lake, at night in a storm and everyone throwing rocks at me. Everyday I wonder "Will I get shot today?". "When will Charlie Brown's Sniper going to show up?" This way of life will change you. I look at it like this. I will die soon, and I will die fighting to save the Children of the Creator and America! Russell Nelson and Ted Wilson are the two Children I am fighting to save right now. The SDA are really good people, and they protect their children from what I have found in the 30+ years I have been in the SDA church. I have attended SDA churches all over America, and they are all different, but all good people. I started the SDA church in 1987. I do not have time to attend church in just one group, so I move around a lot. I have attended many other church group Baptist, Methodist, Lutheran, Episcopal, Catholic, Jewish... from Marathon to Key West in the past years, and talked to every Pastor, and told him about the names being changed. They all tell me they will keep their Jesus. Should I concern myself with every church? I can only do what I can do, so I am looking for where I can be most effective.

I strongly suggest organize this one meeting with the people I have asked for as witnesses, and let us see how this one meeting goes. Then we will all know if I can do this or not. As it stands right now, not One of the SDA or the LDS will be in the First Resurrection. That First Resurrection is what everyone is calling, "Going to Heaven". The worse part is, they are All controlled by these two men. The best part is, If we can change the mindset of these two men, we could save both groups.

Why do I need You there General Brown? You are the Man in charge, You have all the Stars, everyone in that room respect Your Authority, even me. You just being there will make a huge difference. If it takes longer than two weeks to organize this meeting, that would be better than wasting my time and your time coming here to ask me questions, I have already answered. If you want to know who I am,

and what I can do, then organize the meeting, and watch what I do. Then you will have a much better idea of how to use me. I do not want to control the world, or take over any group. I just want them to study with me, and make better decisions based on the true facts that History and the Dead Sea Scrolls have brought to us. I would strongly suggest everyone dealing with this situation go study the 4 pages I made on my website at <https://gothere.us/scriptures/> That will give you a much better understanding of the Jews and the Bible they wrote. This will explain why religion is such a mess. This will help you to understand what we as Humans must do to correct the problem.

I know I will need to go help the Jews in Israel, as they cannot do what they want to do alone. They cannot move or go near the Ark of the Covenant. To move that Ark will take 4 very Special People. I wish I could help the Jews, but I have tried, and they are so strong in their mindset, I do not see a lot of hope there. The war they are fighting will be a very bloody war, and they think this god they serve will save them, but that are so far off base, they serve the devil, and do not know it. It was the same way when the Messiah came, and why they murdered Him. I cannot do anything with or for the Jews, until I have finished in North Korea. I can explain the reasons why if you ask, but that is all down this long road. If the Jews would back off, and stop instigating conflict, they would be better off. When I go there, I will get the Palestinians to allow the Temple to be built in less that one week, and I really doubt I will need to kill one person. I believe what I can do is change the mindset of the leaders of Palestine. That simple. This is the same approach I will be using in Korea.

This whole North Korean resentment towards America was started by General MacArthur when he landed in Seoul. It was to late, as the Koreans had already overpowered the Japanese, and freed their Country, in their mind. So they see the Americans came in and divided up their already freed country. No one is telling these people the truth, all they are told is this story, so they hate America. Any attack from America will just make this situation worse, as the people would see it in their eyes as America started this war. There Must be a better answer, and I believe I am it. I believe I need to go make friends with the King, and help him see things differently. He is the King of Korea. He is invited to the Democracy of Korea. He is the one continuing to hold that line at the 38th parallel. Let the Democracy control the Roads, schools, people, and he controls the Military, just like Europe and America. He just is not looking at his position in that way. In America the North win the civil war, but the South has taken control of America diplomatically. The President or King still controls the Military. Then Korea will be unified and Kim Jung Un is still the King of the Full Country. He just needs to back off from wanting absolute control. This is a peaceful solution, and it will take a special person, that the King wants to listen to. But I cannot just go in and start with that message. I need to be his close trusted friend. If he wants me to do things like climb the Royal Jung Hotel, then I will do that. I am not getting any younger, and to do such a feat at 62 years old would be hard, as I just turned 21 when I climbed the Allied Bank Plaza. I will not be looking to climb that building, I have already proved I could do that long ago, and even today no one has matched what I did 40 years ago. I do not want to do such a thing again, especially at my age. If that would please the King I will try as hard as I can, but I am getting old. That building is like the Creator telling me to go. I am Like saying, "You must be kidding"! Why can't I have a wife and children, why do I need to do this? Why have I had to hide from what I want in life, and be a no body hiding in the woods from my past? Why Me? Where is that other "Witness" Is he just a Coward! Why do I need to do everything alone!!!! Do you even know how hard it is to write these threatening letter!? Do you know how HARD it was to leave my wife, friends, Ship, Dreams, and everything, to go after the man Who I thought was the Heavenly Father's other Witness, not knowing for sure I even was the other Witness. I just knew I was not going to let what "They are planning to do happen" in 2003! That is when I learned of the plan. I was on that trail since 1991, and it did not happen until 2007, and I have been running ever since. That is why Rose left me. I stopped fighting, and feared for her safety, as I had people with guns trying to kill us, or me. I did not want her hurt. She

said she left me, because she thought I was an Angel when she met me. When I changed and started to run, she thought I was weak, and maybe I was. Maybe I should never have stopped fighting.

Thank you for your time and attention.

Skip Stanley

The Witness "Yaaqov"
